

VISHAL CHAUHAN

Lead Product Designer · Emerging Design Manager · Enterprise SaaS · Design Systems · AI-Assisted Product Strategy
Pune, India · +91 8088 893 700 · vishalchauhanux@gmail.com · vishalfolio.lovable.app

PROFESSIONAL SUMMARY

Lead Product Designer and emerging Design Manager with 16+ years of experience scaling enterprise SaaS products, design systems, and design practices across global organizations. Experienced in dotted-line and cross-functional design leadership across critique facilitation, hiring evaluation, coaching, feedback conversations, design quality governance, and stakeholder alignment. Known for helping teams move from opinion-led feature requests to customer-backed product decisions, including contribution to ON!Track's 18% ARR growth as part of the New Look transformation.

KEY ACHIEVEMENTS

- Contributed to ON!Track's 18% ARR growth, from CHF 72M to CHF 85M, as part of the New Look transformation by improving workflow discoverability, asset visibility, and enterprise usability.
- Defined North Star Vision targeting CHF 300M by 2030, shaping multi-year product strategy, AI-assisted workflows, and role-based product experiences for Hilti ON!Track.
- Facilitated stakeholder workshops, discovery reviews, and alignment sessions across PM, engineering, design, and leadership to convert customer evidence into roadmap decisions.
- Architected design system powering 40+ enterprise products at HCL Software, establishing governance frameworks, component libraries, and adoption standards.
- Helped scale Coforge's design practice from 2 to 20+ designers through hiring support, mentoring, design evangelism, standardized workflows, and stakeholder education.
- Championed **AI-assisted design workflows** (ChatGPT, Claude, Figma Make, Copilot), accelerating research synthesis, content development, and design velocity.

CORE COMPETENCIES

Product: Product Strategy · Product Vision · Product Discovery · Product-Led Growth · Roadmap Planning · Customer Research · Customer Insights · Prioritization · Journey Mapping

Design: Enterprise UX · Design Systems at Scale · Information Architecture · Interaction Patterns · Data-Informed Design · AI-Assisted Workflows · UX Quality Governance

Leadership: Cross-Functional Design Leadership · Dotted-Line Leadership · Design Critique Facilitation · Coaching & Mentorship · Hiring Evaluation · Portfolio Reviews · Feedback Conversations · Design Quality Governance · Stakeholder Alignment · Workshop Facilitation

Tools: Figma · FigJam · Figma Make · ChatGPT · Claude · Microsoft Copilot · Miro · Jira · Confluence · ProductBoard

PROFESSIONAL EXPERIENCE

HILTI GROUP | Staff Product Designer March 2023 – Present
Product-Led Growth · Cross-Functional Design Leadership · Multi-Year Product Strategy · AI-Assisted Workflows

- Defined North Star Vision for Hilti ON!Track 2030, establishing multi-year product strategy to influence roadmap direction toward CHF 300M through proactive asset management, role-based experiences, and AI-assisted workflows.
- Led end-to-end product design for ON!Track, Hilti's IoT-enabled enterprise asset management platform, driving discovery, UX strategy, information architecture, prototyping, and delivery across web and mobile.
- Contributed to ON!Track's 18% ARR growth, from CHF 72M to CHF 85M, as part of the New Look transformation by improving workflow discoverability, asset visibility, and enterprise usability.
- Provided dotted-line design leadership across ON!Track initiatives, facilitating design critiques, alignment sessions, and quality reviews when senior UX leadership was unavailable.
- Influenced product prioritization by challenging backlog-driven feature requests and redirecting teams toward customer-backed discovery, helping pivot focus from Service Checklist assumptions to higher-value customer needs such as Van Driver Journal.

- Led effort-versus-impact prioritization for Storage Assets New Look, helping the team narrow 20+ identified opportunities into 4–5 high-impact requirements for the first release.
- Protected customer experience quality during requirement refinement by advocating for minimum lovable product thinking over minimum-effort delivery, using customer validation and persona-awareness workshops to build engineering alignment.
- Conducted 100+ customer research sessions across international markets and introduced AI-assisted support-ticket analysis to improve insight generation velocity, prioritization quality, and design productivity.
- Created reusable interaction patterns for complex enterprise workflows, improving consistency, scalability, and design efficiency across ON!Track web and mobile experiences.
- Supported hiring, portfolio reviews, design exercises, candidate evaluation, coaching, and designer growth conversations across Hilti and previous organizations.

HCL SOFTWARE | Lead Designer I

November 2018 – March 2023

Design Systems at Scale · Design Governance · Mentorship & Co-Creation

- Led the UX Centre of Excellence, creating governance models, design standards, and operating frameworks supporting 40+ enterprise products.
- Architected HCL Software's design system, enabling consistent UI/UX and accelerating design-to-engineering handoff across a distributed, multi-product enterprise portfolio.
- Directed design operations, research practices, component libraries, critique rituals, and collaboration frameworks, improving design maturity, cross-product consistency, and delivery quality.
- Facilitated stakeholder workshops, co-creation sessions, and usability evaluations that informed product strategy and design decisions across multiple enterprise SaaS platforms.
- Mentored and coached 5+ cross-product designers through structured design reviews, critique sessions, problem-framing discussions, and stakeholder-alignment guidance.

COFORGE (formerly Synerzip) | Lead UX Designer

June 2016 – November 2018

Building & Evangelizing Design Practices · Organizational Transformation

- Helped scale the design practice from 2 to 20+ designers through hiring support, mentoring, standardized workflows, design evangelism, and stakeholder education.
- Supported hiring interviews, portfolio reviews, design exercises, and candidate evaluation to build design capability across the organization.
- Spearheaded design evangelism, educating stakeholders and leadership on UX's strategic value and positioning design as a core business service.
- Introduced Design Sprint as a billable service; supported presales, upsell, and cross-sell initiatives to grow the design practice and expand client impact.
- Collaborated with leadership teams to establish design as a strategic capability supporting business growth, client acquisition, and delivery quality.
- Standardized design tooling, documentation practices, and cross-team collaboration workflows across Sketch, Zeplin, Abstract, and InVision.

EARLIER EXPERIENCE

DataCore Software (formerly CloudByte) | Associate UX Architect

Jan 2013 – Jun 2016

- Led UX for cloud storage management platform
- Introduced user-centered design practices across engineering teams

Webenza | UX Designer

Oct 2011 – Oct 2012

- Delivered UI/UX solutions across digital marketing spectrum.

Thomson Reuters | Associate Web Developer

Apr 2011 – Mar 2012

The Akshaya Patra Foundation | UI Designer

Sep 2010 – Apr 2011

CERTIFICATIONS

Enterprise Design Thinking Practitioner | IBM

2021

Interaction Design | IIT Guwahati

2018

Certified Usability Analyst (CUA) | Human Factors International

2016

EDUCATION

Bachelor of Computer Applications (BCA) | MS University, Vadodara

2006 – 2009
